1. Applicant's Amendment filed on August 20, 2003 in response to Examiner's Office Action has been reviewed. Claims 32 and 45 have been amended.
2. Claims 32-56 are presented for examination.

***Election/Restriction***

3. Restriction to one of the following inventions is required under 35 U.S.C. 121:  
  
Group I: Claims 32-40 and 45-56, drawn to a method and apparatus for updating files between a first computer and a second computer, classified in Class 707, subclass 204.  
  
Group II: Claims 41-44, drawn to a method and apparatus for generating a log responsive to the event or activities monitored on a computer device, classified in Class 707, subclass 10.
4. The inventions are distinct from each other because of the following reasons:
  - a. These inventions have acquired a separate status in the art as shown by the different classification.
  - b. The search required for one group is not required for the other group. In the instant case, the invention in Group I has required a search classified in Class 707, subclasses 204, and the invention in Group II has required a search classified in Class 707, subclass 10. These inventions have acquired a separate status in the art as shown by the different classification and the search required for one group is not required for the other group. For the reasons above restriction for examination purposes as indicated is proper.

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).
